

Steps to check if your Windows 8 & 10 OS is a 64 bit or 32 bit version.

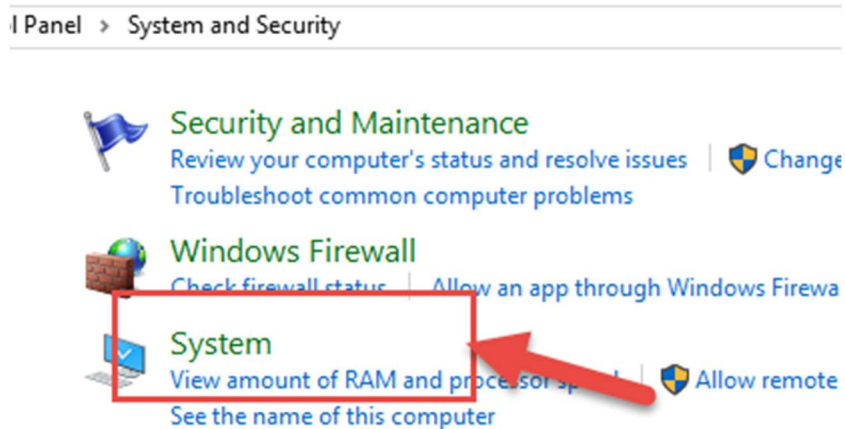

1. Right-click on your mouse and select Control Panel to launch the control panel. You can also select Run and type **control** in the text box which pops up to launch the control panel.

2. Click on the **System and Security** link.

3. Click on the **System** link.

4. You will see basic information about your computer on the Systems Page. Look for the system type to check if your computer is running a 32 bit or 64 bit operating system.
